The Western DataCom ComCase™ E includes all of the components necessary to operate a mobile IP based application. Instantly turn up a WiFi hotspot with reach back to your HQ network or tie into wired infrastructures for connectivity.

The ComCase™ E can be integrated with the Western DataCom MobileCom family of cellular modems that are capable of operating on the Verizon, Sprint, Alltel, Cingular and T Mobile nationwide networks. In addition it supports the Western DataCom IPE-10M/H for securing mobile communications using 256-bit AES countermode encryption.

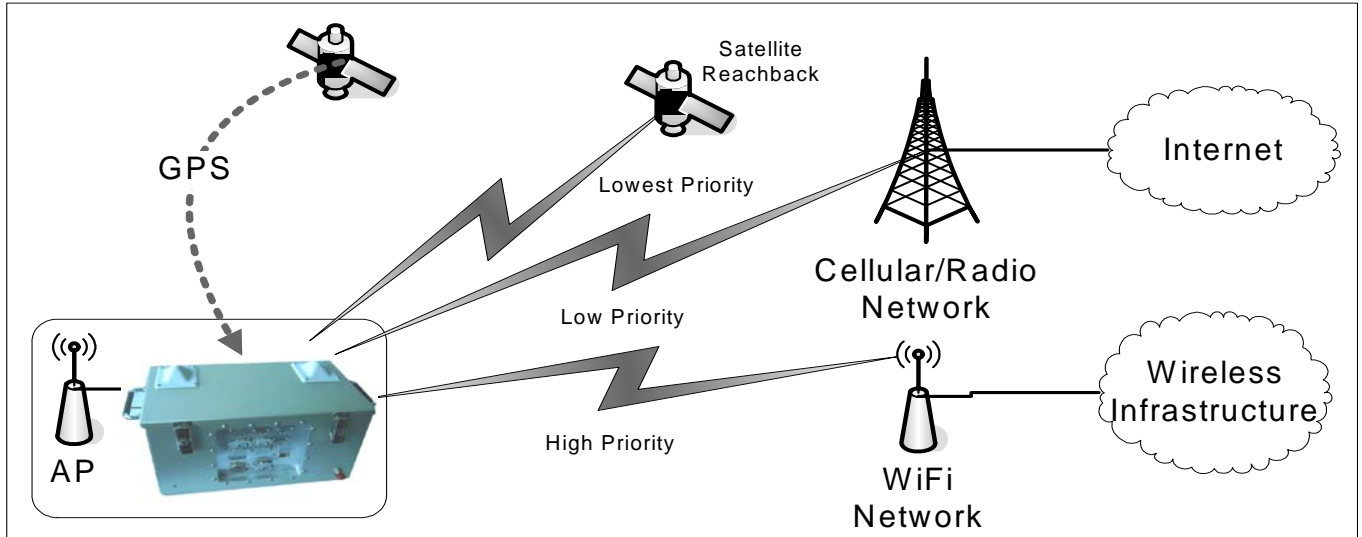

The ComCase™ E uses only approved components and is designed for travel applications. Measuring 5" x 12" x 12" allows it to fit in overhead storage. Its small size allows it fit into numerous carrying cases such as back packs and wheel bags.

Western DataCom is a premier Advanced Technology Partner for the Cisco 3200 Series Mobile Access Router. Enhanced support options are available for the ComCase™ E as well as custom configurations.

ComCase™ E

Integrated Mobile Access Router

General Specifications:

- Interfaces:
- 4 - 10/100 Ethernet (2 External)
 - 2 - Serial Interfaces
 - 1 - Console
 - 1 - Auxillary
 - 4 - WiFi Antenna
 - 1 - Crypto Console
 - 1 - Crypto Keyfill
 - 3 - Cellular/GPS Connectors
 - 1 - 1000BaseT (Gigabit)
 - 1 - Catalyst Console
 - 12 - 10/100BaseT

Size: 5" x 12" x 12", 13lbs.

Power:

- 110-230V AC Input
- 12V DC Input
